## PROFESSIONAL SUMMARY

Motivated and detail-oriented **Mobile and Web Developer** with hands-on experience in **Flutter, React, and WordPress development**. Skilled in building user-friendly, high-performance applications and passionate about solving complex problems. Seeking an entry-level role to contribute to innovative projects, enhance technical expertise, and drive business growth through creative solutions.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python

**Web Development:** Node.js, React.js, HTML, CSS, JavaScript

**Mobile Development:** Flutter, Dart

**Tools & Frameworks:** Electron, WordPress, Git, REST APIs

**Machine Learning:** Familiar with ML concepts and frameworks (e.g., TensorFlow, Scikit-learn)

## WORK EXPERIENCE

### WordPress Developer (Freelancer)

*Jul 2024 - Present*

- Developed Valhalla Bazaar, a secure digital marketplace for buying and selling digital products.
- Integrated secure payment gateways and user authentication systems. [Website link](#)

### Flutter Developer (Freelancer)

*Jun 2023 - Oct 2023*

- Developed Bekron, a **Flutter**-based coffee shop loyalty app with a reward system that lets customers earn points on purchases and redeem them for free coffee.

### Software Developer Intern

*Jul 2022 - Aug 2022*

*WeWire Hammamet Tunisia Sarl, Tunisia*

- Built a cross-platform desktop application using Electron for Excel data extraction, analysis, and visualization.
- Developed a dynamic **HTML/JavaScript** UI and integrated **Python** for backend data processing.

### Web Developer Intern

*Fatih Sultan Mehmet Foundation University | Istanbul, Turkey*

*Jul 2020 - Aug 2020*

- Collaborated with a team to develop an advanced lesson adaptation system to streamline the transition process for students transferring between universities using **react.js** as frontend and **Nodejs** as backend. Built RESTful APIs using **Express.js** to facilitate efficient communication between the frontend and backend systems.

## EDUCATION

**Fatih Sultan Mehmet Foundation University**

**Master of Science | Computer Engineering**

**Present**

**Bachelor of Science | Computer Engineering**

**Nov 2018 - Dec 2023**

## PROJECTS

- **Study Group App:** mobile application developed using Flutter and Firebase, allowing users to create public or private study groups with access via a special code.
- **Food Delivery App:** mobile application developed using **Flutter** and **Firebase** that enables users to order food online from restaurants. [Project link](#)
- **Turkey Travel Guide:** web application developed using **React.js**, **CSS**, and **MySQL**. Users can access detailed information about tourist attractions, restaurants, and hotels in Turkey.
- **American Sign Language (ASL) Recognition using CNN:** a deep learning-based CNN model that classifies 29 sign language letters with 98.17% accuracy. Trained on a large dataset of over 87,000 images using TensorFlow and Keras. [Kaggle](#)
